

2014 SJTU Speech and Language Processing Workshop

Time: 22nd September, 2014

Location: SEIEE 3-410, Shanghai Jiao Tong University

Organizers: Dr. Yanmin Qian and Prof. Kai Yu

Time	Speaker	Title
9:30-10:20	Prof. Honza Cernocky Brno University of Technology, Czech	BUT Speech@FIT: 17years of research in speech data mining
10:20-11:10	Dr. Timo Baumann University Hamburg, German	Incremental processing for natural and flexible speech synthesis
11:20-12:00	Prof. Kai Yu Shanghai Jiao Tong University, China	Adaptation techniques for statistical speech recognition
Lunch		
2:00-2:50	Dr. Longbiao Wang Nagaoka University of Technology, Japan	Robust speech recognition and speaker recognition under adverse conditions at Nagaoka University of Technology
3:00-3:40	Dr. Karafiat Martin Brno University of Technology, Czech	Development of ASR systems with low resources – the Babel project
3:40-4:20	Dr. Frantisek Grezl Brno University of Technology, Czech	Neural networks for feature extraction
4:20-5:00	Dr. Oldrich Plchot Brno University of Technology, Czech	Speaker identification in noisy data
